Rounding and Percentages

Some numerical figures included in these financial statements have been subject to rounding adjustments. Accordingly, numerical figures shown for the same category presented in different tables may vary slightly, and numerical figures shown as totals in certain tables may not be an arithmetic aggregation of the figures that precede them.

In these financial statements, certain percentage figures have been included for convenience purposes in comparing changes in financial and other data over time. However, certain percentages may not sum to 100% due to rounding.

Citadele remains focused on building Baltic value proposition, expands in leasing, committed to maintain best customer service standard

It has been a strong year for the Citadele Group. We continued to increase our lending footprint in both the retail and corporate banking sectors, achieving 13% loan book growth in 2019. Our commitment of providing the best customer service enabled Citadele to maintain the top position among banks in Latvia. Citadele's number of active clients increased by 16% in 2019.

Guntis Beļavskis

Chairman of the Management Board, CEO

2019 was characterized by a strong financial performance, growing customer bases across core business segments and further implementation of new and improved daily banking services, with newly developed innovative solutions for our customers.

High client activity

We are pleased to see that our effort to provide the best possible client service and products, continuous digital channel development and the convenience of remote services have resulted in increased customer activity.

Since the beginning of the year, Mobile App users and Internet bank customers increased by 64% and 10%, respectively, reaching 131 thousand active Mobile App users and 190 thousand active Internet Bank customers.

The number of active customers increased by 42 thousand (16% growth) in 2019, and reached a record high of 313 thousand clients at the end of the year.

Innovative products and services

Throughout 2019, Citadele continued to develop and launch innovative digital solutions, products and services to meet customer expectations across multiple channels. We have launched consumer loans via Mobile App, in-store payments by smartphone, instant card and POS terminal issuance, and P2P payments to mobile phone numbers for private customers. In Q4, we launched an interactive online platform, *finoterapija.lv*, offering free automated financial consultation.

Bank with the best customer service in Latvia

Our commitment of providing the best customer service enabled Citadele to maintain the top position among banks in Latvia, according to the annual mystery shopper survey conducted by international customer service evaluation company DIVE. Citadele was announced as the bank with the best customer service in Latvia for the fifth time.

Focus on Baltic private and corporate customers

Citadele continued to increase its lending footprint in both retail and corporate banking sectors, achieving 13% growth year-on-year (increase of EUR 177 million). Loan portfolio reached EUR 1,573 million.

Strong progress was also made in deposit gathering, where the Group increased Baltic deposits by EUR 624 million during 2019. Total deposits increased by 24% since year end 2018.

Expanding Baltic assets, leasing footprint

Following Citadele's long-term goal to become the leading financial services provider in the Baltics for private customers and SMEs, Citadele has entered into a binding agreement with UniCredit S.p.A. to acquire 100% of the shares of SIA UniCredit Leasing and its subsidiary SIA UniCredit Insurance Broker. The acquisition, pending regulatory approvals, is expected to close in Q1 2020, and would increase Citadele Bank's leasing portfolio by EUR 850 million, to a total of EUR 1.1 billion.

We believe that UniCredit Leasing is one of the best-established players in the region, with a leading presence in all three Baltic

countries. It has an innovative and user-friendly product proposition, and robust operating and controlling systems. Its business profile is complementary with Citadele and would provide the Group with a viable platform for further growth across target customer segments and markets.

Investing through Fellow Finance, the Largest Peer-to-Peer Lending Platform in the Nordics

Citadele launched its partnership with Fellow Finance, the largest P2P lending platform in the Nordics, and German FinTech company CrossLend. The Bank will utilize Fellow Finance's lending platform that provides consumer and SME loans in the Nordic countries and Central Europe.

Launch of Sustainable Pension Plan

At the end of May, Citadele Bank's subsidiary, CBL Asset Management, created Latvia's first pension plan whereby pension savings are invested in businesses that are the most sustainable in their respective industries: protecting the environment, taking care of employees, and acting responsibly for the long-term.

Bank's credit ratings put on review for upgrade

The Bank's credit rating of Ba1 has been placed under review for upgrade by Moody's, reflecting positive developments in the Bank's financial profile and progress towards delivering its previously announced strategy of continuing to expand its Baltic operations.

Financial review of the Group

Overall business sentiment in the Baltics was positive and domestic consumption remains strong, supported by decreasing unemployment level and wage growth. High activity levels were also exhibited in both private and corporate segments – the Group's loan portfolio increased by 13% year-on-year. Net profit in 12 months 2019 was EUR 36.5 million, which translated into 11.5% annual return on equity.

Results and profitability in 2019

Net interest income reached EUR 84.6 million, a 2.5% increase year-on-year, primarily driven by loan portfolio growth of 13%. The loan portfolio increase was driven by increased business activity primarily from the Retail segment that saw year-on-year net interest income increase of 14%.

The Group's **net fee and commission income** reached EUR 30.9 million, a 7% decrease year-on-year, mainly due to lower income from currency exchange, payments and transactions.

The Group's **operating income** reached EUR 123.9 million, a 3% decrease year-on-year. **Operating expenses** decreased by 3% compared to the same period in 2018, mainly due to considerably lower advertising and marketing expenses (-30%) and consulting fees (-9%). Staff costs decreased by 1% and stood at EUR 53.3 million. The number of full-time employees was 1,369 vs 1,492 as at year end 2018, reflecting ongoing efficiency initiatives. Citadele continued to develop and launch innovative digital solutions and products, and IT costs reached EUR 6.2 million, a 5% increase year-on-year.

Depreciation and amortisation expenses stood at EUR 7.7 million (+24% YoY), following the IFRS 16 requirements - reclassification of Operating lease expenses, previously included in "Other expenses".

Citadele's **cost to income ratio** was 66.8% versus 67.1% in 2018.

Net credit losses and impairments were EUR (1.5) million, vs (7.0) as of end of 2018. The credit quality of the Group's loan portfolio remained stable. The Stage 3 loans to public ratio decreased to 4.8% as of 31 December 2019, compared to 9.1% at the end of 2018. The securities portfolio also demonstrated stable development in terms of yield and risk profile. 90% of debt securities are rated A or higher.

Return on equity in 2019 was 11.5%.

Q4 stand-alone financials display a slightly lower operating income versus the previous year, and 9% lower net profit.

Balance sheet overview

The Group's assets stood at EUR 3,743 million as of 31 December 2019, representing a 23% increase from year end 2018 (EUR 3,052 million).

The **net loan portfolio** has grown by EUR 177 million (13% growth) from year end 2018, reflecting prudent lending standards and ambition to retain loan book quality. The loan portfolio stood at EUR 1,573 million at year end 2019. **New lending** during the year reached EUR 590 million, with the Corporate portfolio seeing a healthy pipeline going forward. EUR 313 million was granted to Retail clients across all Baltic countries and EUR 277 million was granted to corporate customers (mainly in Latvia and Lithuania).

In terms of geographical profile, the loan portfolio by country has remained unchanged over recent years. As of 31 December 2019, Latvia accounted for 60% of the portfolio (EUR 948 million), followed by Lithuania at 27% (EUR 419 million) and Estonia at 11% (EUR 153 million). Portfolios in Latvia and Lithuania also saw the largest increases since year end 2018, with 14% growth (EUR 117 million) and 9% growth (36 million), respectively.

No major changes in **industry concentrations** occurred during 2019. Loans to Households represented 44% of the portfolio, where mortgages have experienced a stable increase in recent years and saw 15% growth in 2019. Consumer credit and card lending also increased by 19% and 10%, respectively, since year end 2018. Overall, the main industry concentrations were Real estate purchase and management (27% of gross loans), Transport and communications (13%) and Manufacturing and Trade (15% and 12%, respectively).

The **main source of funding, customer deposits, grew** by 24% vs year end 2018, with growth coming from Baltic residents that increased by EUR 624 million. As of 31 December 2019, total Group customer deposits were EUR 3,290 million.

Acquisition of UniCredit Leasing

UniCredit Leasing represents one of the leading market players in the Baltics, with more than 20 years of leasing experience and a demonstrated ability to deliver sustainable business growth. The acquisition, which is expected to complete in Q1 2020, would create significant value and scale for the Group. Citadele's aggregate net leasing loans would exceed EUR 1.1 billion, placing the Bank in the top three largest players in the Latvian leasing market. Citadele expects to continue to maintain strong capital and liquidity ratios well above regulatory requirements, and enhance its profitability metrics on a pro forma basis.

Subordinated bonds issue

The Bank's Management Board has approved plans to launch Citadele's Third Unsecured Subordinated Bonds Programme and issue new Subordinated Bonds of up to EUR 30 million. Proceeds from the offer are to be used for general business development and to further strengthen the Group's capital base.

Ratings

International credit rating agency Moody's Investors Service has assigned Citadele bank a deposit rating of Ba1, currently under review for upgrade (3 January 2020).

The main credit strengths are:

- Continued improvement in capitalisation, signalling a commitment by its owners to continue building a viable bank
- Improved governance, with selective growth in its home markets and exiting non-resident segments

Moody's

Long term deposit	Ba1
Long term counterparty risk rating	Baa3
Short term deposit	NP
Short term counterparty risk rating	P-3
Outlook:	Under review/ possible upgrade

Detailed information about ratings can be found on the web page of the rating agency www.moodyys.com

Segment highlights – 2019

Retail segment was characterised by solid performances in terms of customer acquisition, loan growth and new product development

In 2019 we followed our ambition to become the Baltic Banking Champion. Focus was devoted to the delivery of digital solutions for becoming a “bank in your pocket”, as well as our goal to provide the best client service 24/7 in our remote Sky Branch and 37 physical branches throughout the Baltics.

Increasing demand for digital products and services

The importance of technology and digitalization of services continues to increase. During past years we have introduced various innovative technologies to our banking services, such as intuitive mobile banking apps with innovative features, the option of opening an account using a selfie without the need to come to a branch, confirming payments using facial recognition and fingerprints, and the ability to pay using a wristband, sticker or smartphone. We continue to innovate our products and services and offer a seamless experience for existing and new customers.

As of 31 December 2019, Mobile App active users reached 131 thousand clients (64% growth since the beginning of the year). Internet bank active customers constituted 190 thousand active customers (10% growth). Share of digitally onboarded customers through the Mobile app and Web also increased. In Latvia more than 10 thousand clients have opened an account remotely since the beginning of 2019.

Improving client service and increasing number of customers

We have actively worked to improve our client service during the year. We are very pleased that the international customer service evaluation company DIVE, in its annual banking client service survey, named Citadele as the Bank with the best customer service in Latvia for the 5th year.

The number of active private customers continued to grow rapidly, increasing by 42 thousand clients in 2019 and reaching 282 thousand at year-end. The number of active SME clients also grew by 5.5 thousand, and reached approx. 18 thousand at year end. Also, Citadele is the first bank in the Baltic states, and one of the first in Europe, to issue consumer loans through a peer-to-peer lending platform.

Partnering with leading FinTech companies

The Bank will make investments utilising Fellow Finance's lending platform, headquartered in Finland, which provides consumer and SME loans in the Nordic countries and Central Europe.

Strong lending growth

New lending to retail customers reached EUR 313 million during 2019. Total loans to Private customers constituted EUR 586 million as at 31 December 2019. Loans to SMEs and Leasing reached EUR 128 million and EUR 217 million, respectively.

Retail deposits reached EUR 1,133 million, a 23% increase since year end 2018. Operating income to private customers in 2019 was EUR 43.7 million. The SME segment reached EUR 12.6 million in operating income.

increases new loans issued and promotes the growth of small and medium businesses

The Corporate segment continues to execute our strategy to become the home bank for Baltic businesses in the manufacturing, trade and service industries.

Besides continuing to promote growth of small and medium businesses, we supported new investments by some of the top corporates in the Baltics.

New lending remains strong

The Corporate segment continued to increase its new lending volumes, which reached EUR 277 million through 2019. Nevertheless, the gross corporate portfolio as of 31 December 2019 amounted to EUR 564 million, a 2% decrease from the previous year, primarily due to the early repayment of several loans. Corporate segment deposits reached EUR 695 million, up by 18% year-on-year.

Particular attention was devoted to launching new partnerships with manufacturing and trading companies, both to provide day-to-day services as well as to support investment programs. We also continued to develop financing opportunities with various players in the Fintech sector.

Corporate segment

Business Environment

Global economy shows signs of stabilization

The global economy remains in a relatively moderate cyclical slowdown with some signs of stabilization in short-term macroeconomic indicators. Manufacturing sentiments in the US, euro area, China and other major economies are no longer declining, and service sector and consumer sentiments remain strong. China-US Trade Agreement has decreased trade tensions. Interest rate decreases by major global central banks have given a boost to the global economy and financial markets. However, the appearance of the new coronavirus COVID-19 in January 2020 in China has created a new potentially significant risk for the global economy in 2020.

Growth in the Baltics remains strong, but sentiment is declining

The Baltic region continues to grow faster than the euro area, despite the slowing global economy. In Lithuania and Estonia, annual real GDP growth in 2019 remained close to 4%. Growth in Latvia declined to 2.1%. Despite the still solid GDP growth, economic sentiment in the Baltics has begun to decline.

The growth slowdown in Latvia in 2019 was mainly impacted by internal factors and one-off issues, such as bad weather conditions in the energy sector, a fall in lumber prices, a drop in transit volumes, tight fiscal policy, problems in banking sector and a reduction in cross border trade as a result of changes in Estonian tax policy.

Weak external demand in export sectors

Manufacturing and export industries usually see the largest impacts from an unfavorable global macroeconomic environment. Nevertheless, the manufacturing sectors' growth in the Baltics in 2019, have been stronger than elsewhere in the euro area, indicating that Baltic manufacturers remain competitive. However, the volume of new industrial orders has declined significantly, and export growth in the Baltic States slowed down in the second half of 2019.

Manufacture of fabricated metal products, electrical equipment, as well as computers and optical equipment are still the fastest growing manufacturing industries in the Baltics, with output growth of over 10% in almost all Baltic countries during 2019.

Domestic consumption remains strong

Domestic consumption remains one of the main drivers of economic growth in the Baltics. However, in the second half of the year, annual retail sales growth in euro terms has decreased slightly from 6-8% in the first half of 2019 to 4-5% in the last months of the year. Growth rates have declined most rapidly in Latvia, partly due to the decline in alcohol sales following the reduction of excise duty tax in Estonia.

Consumer sentiment remains strong, unemployment in the Baltics is declining and average wages in the Baltics have risen by about 8% in 2019. Consumer price inflation is also moderate within the range of 2-3%.

The notes on pages 15 to 40 are an integral part of these financial statements

NOTES TO THE FINANCIAL STATEMENTS

If not mentioned otherwise, referral to the Group's policies and procedures should be also considered as referral to the respective Bank's policies and procedures. Figures in parenthesis represent amounts as of 31 December 2018 or for the year ended 31 December 2018.

NOTE 1. AUTHORISATION OF THE FINANCIAL STATEMENTS

These financial statements have been authorised for issuance by the Management Board and comprise the financial information of AS Citadele banka (hereinafter – the Bank or Citadele) and its subsidiaries (together – the Group).

NOTE 2. GENERAL INFORMATION AND INTEGRATION OF THE LITHUANIAN BANK

Citadele is a Latvian-based bank offering retail, private banking, asset management, lending, leasing and other commercial banking services. On 31 December 2019 the Bank operates branches in Latvia, Lithuania and Estonia. AS Citadele banka is the parent company of the Group, which has subsidiary bank in Switzerland and several subsidiaries which include financial services companies. The Group's main market is Baltics (Latvia, Lithuania and Estonia). Citadele was registered as a joint stock company on 30 June 2010. Citadele commenced its operations on 1 August 2010.

As of 31 December 2019, the Group had 1,369 (2018: 1,492) and the Bank had 1,292 (2018: 1,147) full time equivalent active employees. The number of employees of the Bank increased as a result of the transfer of the business and employees from AB Citadele bankas (Lithuania) to the Lithuanian branch of AS Citadele banka in January 2019.

The integration of AB Citadele bankas (Lithuania)

As a result of the AB Citadele bankas (Lithuania) transformation to the Lithuanian branch of AS Citadele banka in January 2019 the subsidiary's assets, liabilities and equity were merged into the Bank's balance sheet. In-line with the Group's accounting policy, a EUR 10.6 million positive difference between the Bank's investment in the subsidiary and the total equity of the subsidiary was recognized directly in the Bank's retained earnings (see Statement of Changes in Equity). The Bank's income statement was not directly affected by the transaction. The Group's financials were similarly unaffected as the transaction was within the Group, except for transfer of a previously recognized statutory reserve to retained earnings (due to changes in the legal status).

NOTE 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a) New standards and amendments

New accounting and financial reporting standards, interpretations and amendments which were not applicable to the previous annual financial statements since then have been issued. Some of the standards become effective in 2019, other become effective for later reporting periods. In this section the ones relevant for the group are summarised. Where the implementation impact was or is expected to be reasonably material it is disclosed.

New requirements effective for 2019

IFRS 16 – Leases (replaces IAS 17, IFRIC 4, SIC-15, SIC-27). The Group has initially applied IFRS 16 using the modified retrospective approach, under which the comparative information is not restated and the Group has elected to apply the new standard by not affecting the retained earnings at 1 January 2019.

A lease is a contract, or a part of a contract, that conveys the right to use an asset (the lease asset) for a period of time in exchange for consideration. According to the new standard for qualifying lease assets, upon lease commencement, a lessee has to recognise a right-of-use asset and a lease liability. The right-of-use asset is initially measured at the amount of the lease liability plus any initial direct costs. Subsequently the right-of-use asset is measured using a cost model. A right-of-use asset is measured at cost less any accumulated depreciation and impairment. The lease liability is initially measured as a discounted value of payments agreed over the lease term. A discount rate which discounts future payments to estimated present value is applied. The Group presents right-of-use assets in the same line items in which it presents assets of the same nature that it owns. Lease liabilities are presented within other liabilities. The Group has elected not to recognise right-of-use assets and lease liabilities for low-value assets, but to expense lease payments for low-value assets over the lease term.

For lessors classification of lease as an operating lease or a finance lease remains unchanged; therefore, the Group as a lessor has no direct impact from the new standard.

When estimating lease term, the Group's intentions as well as contractual early termination and extension options of lessee and lessor are considered. When a previously recognised lease is modified and scope of the lease increases and increase in compensation is commensurate, a new separate lease is recognised; if increase in compensation is not commensurate or scope of lease decreases the current right-of-use asset and corresponding lease liability is re-measured. In case of decrease in scope of lease a gain or loss (if any) is recognised in income statement.

For the Group as a lessee the major class of right-of-use assets are rent agreements for branch network and other premises used for operating needs of the Group. Most lease contracts may be early terminated by both the Group and the lessor. Many contracts may be extended beyond their current term at discretion of the Group. Thus if there is an extension clause or early termination clause a lease term equal to the planning horizon of three years is often applied unless the lease term is shorter already. In case of branches this is based on a plan to move towards a more digital model less dependent on the physical presence. The Group owns its headquarters building, which is leased by the Bank from its subsidiary. As both parties are under common control the lease term may be extended or shortened at the Management's discretion. For intragroup lease of the headquarters building the applied three years lease term assumption is linked to the business plan horizon. The incremental borrowing rate at the date of initial application was set at 1.05% and was based on the Bank's deposit rate with an additional 0.5% risk spread for lack of deposit guarantee for leases. The Group uses practical expedient of low value items where any item generating cash outflows of less than EUR 5 thousand during the lease term is outscoped.

The amount of right-of-use asset which was recognised at implementation of the new standard was EUR 11.2 million for the Bank and EUR 3.7 million for the Group. Corresponding lease liability was recognised. In the reporting period, the Bank and the Group has recognised depreciation charges for right-of-use assets in the amount of EUR 3.9 million and EUR 1.5 million, respectively.

	Group	Bank
Future minimum lease payments under non-cancellable operating leases as of 31 December 2018 (IAS 17)	1,417	6,272
Short term and low value asset leases	(31)	(31)
Recognised lease term beyond non-cancellable lease period	2,389	5,170
Effect from discounting at the incremental borrowing rate	(59)	(184)
Lease liabilities as of 1 January 2019 (IFRS 16)	3,716	11,227

New standards, amendments to standards and interpretations which did not have a significant effect to the Group:

IFRIC 23 – Uncertainty over Income Tax Treatment

Amendments to IFRS 9 – Prepayment Features with Negative Compensation

Amendments to IAS 28 – Long-term Interests in Associates and Joint Ventures

Amendments to IAS 19 – Plan Amendments, Curtailment or Settlement

Annual Improvements to IFRSs 2015-2017 Cycle – Amendments to IFRS 3, IFRS 11, IAS 12 and IAS 23

Requirements to come but not impacting 2019 financials

Certain new standards, amendments to standards and interpretations have been endorsed by EU for the accounting periods beginning after 1 January 2019 or are not yet effective in the EU. These standards have not been applied in preparing these financial statements. The Group does not plan to adopt any of these standards early. The Group is in the process of evaluating the potential effect if any of changes arise from these new standards and interpretations.

IFRS 17 - Insurance Contracts. Effective for annual reporting periods beginning on or after 1 January 2021 with earlier application permitted as long as IFRS 9 and IFRS 15 are also applied. The upcoming standard combines current measurement of the future cash flows with the recognition of profit over the period that services are provided under the contract. Groups of insurance contracts have to be measured at a risk-adjusted present value of the future cash flows adjusted for unearned profits or losses. Profit from a group of insurance contracts is recognised over the period the insurance cover is provided, and as the risk is released; loss from a group of contracts is recognised immediately. The standard requires presenting insurance service results separately from insurance finance income or expenses and requires to make an accounting policy choice of whether to recognise all insurance finance income or expenses in profit or loss or to recognise some of that income or expenses in other comprehensive income.

Amendments to References to Conceptual Framework in IFRS Standards
Amendments to IFRS 3 – Definition of a Business
Amendments to IAS 1 and IAS 8 – Definition of Material
Amendments to IFRS 10 and IAS 28 – Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

b) Functional and Presentation Currency

The functional currency of each of the Group's consolidated entities is the currency of the primary economic environment in which the entity operates. The functional currency of the Bank, its Baltic subsidiaries, and the Group's presentation currency, is Euro ("EUR"). The functional currency of majority of the Group's foreign subsidiaries is also Euro. The accompanying financial statements are presented in thousands of Euros.

c) Changes in classification

In 2019 Citadele reviewed classification of annual and quarterly supervisory fees and reclassified these from *Fee and commission expense* to *Net other income*. Supervisory fees are payable to Financial and Capital Market Commission, European Central Bank, Single Resolution Board and are directly dependent on the size of the banking business, mostly the amount of assets held as at relevant measurement date. Similarly based on a trough review several expense categories were reclassified from *Other operating expenses* to *Net other income* as these relate to direct cost of core business and not an administrative efficiency.

Adjustments to comparatives due to changes in presentation

	2018 EUR thousands					
	Group			Bank		
	Restated	Adjustment	Initial	Restated	Adjustment	Initial
Fee and commission expense	(23,640)	1,411	(25,051)	(20,475)	1,239	(21,714)
Net other income	820	(2,279)	3,099	3,362	(1,555)	4,917
Other operating expenses	(25,201)	868	(26,069)	(20,592)	316	(20,908)

d) Use of estimates and judgements in the preparation of financial statements

The preparation of financial statements in conformity with International Financial Reporting Standards as adopted by EU, requires management to make estimates and judgements that affect the reported amounts of assets, liabilities, income and expenses and disclosure of contingencies. The management has applied reasonable and prudent estimates and judgments in preparing these financial statements. The significant areas of estimation used in the preparation of the accompanying financial statements relate to evaluation of impairment losses for assets, determination of the control of investees for consolidation purposes, and evaluation of recognisable amounts of deferred tax assets and liabilities.

NOTE 4. OPERATING SEGMENTS

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker is the person or the group that allocates resources to and assesses the performance of the operating segments of the Group. The Management Board of the Bank is the chief operating decision maker.

In 2019, as a result of a forthcoming acquisition of a leasing business (refer to Note 22 (*Events after the Reporting Date*)), the strategic focus has shifted and leasing is now considered a standalone segment. This is represented in the new operating segments of the Group, which are revised for 2019 in line with the changes in strategic priorities and organisational structure. Some operations were re-allocated among operating segments.

These updates were thoroughly implemented in the segment disclosure. Prior period comparatives were adjusted accordingly. Allocation of client business among segments is based on the segment where the client was serviced at the point in time when the transaction took place; thus, when a client is transferred to a new segment, past transactions are not redistributed to the new segment. In 2019 in total EUR 59 million of client loans were reallocated from Corporate to SME segments as a result of integration of AB "Citadele" bankas (Lithuania).

All transactions between operating segments are on an arm's length basis. FTP adjusted net interest income of each operating segment is calculated by applying internal transfer rates to the assets and the liabilities of the segment. Maturity, currency and timing of the transaction are components of the internal transfer rate calculation. Income and expense is reported in the segment by originating unit and at estimated fair price. Both direct and indirect expenses are allocated to the business segments, including overheads and non-recurring items. The indirect expense from internal services is charged to the internal consumers of the service and credited to provider of the service. The internal services are charged at estimated fair price or at full cost.

Main business segments of the Group are:

Private customers

Private individuals serviced in Latvia, Lithuania and Estonia. Operations of the segment include full banking and advisory services provided through branches, internet bank and mobile banking application.

SME

Small and medium-sized companies in Latvia, Lithuania and Estonia serviced through branches, internet bank and mobile banking application.

Corporates

Large customers serviced in Latvia, Lithuania and Estonia. Yearly turnover of the customer is above EUR 7 million or total risk exposure with Citadele Group is above EUR 2 million or the customer needs complex financing solutions.

Wealth management

Private banking, advisory, investment and wealth management services provided to high net-worth individuals serviced in Latvia, Lithuania and Estonia.

Swiss

This segment comprises operations of AP Anlage & Privatbank AG.

Leasing

Leasing and factoring services provided to private individuals and companies in Latvia, Lithuania and Estonia.

Other

Group's treasury functions and other business support functions, including results of the subsidiaries of the Group operating in non-financial sector.

NOTE 5. INTEREST INCOME AND EXPENSE

EUR thousands			
	2019 Group	2018 Group	2018 Bank
Interest income calculated using the effective interest method:			
Financial assets at amortised cost:			
Loans to public	78,581	76,422	83,008
Debt securities	3,891	3,738	3,170
Cash balances at and lending to central banks and credit institutions	1,075	1,426	850
Debt securities at fair value through other comprehensive income	6,776	6,703	4,098
Interest income on finance leases (part of loans to public)	10,232	9,355	-
Total interest income	100,555	97,644	91,126
Interest expense on:			
Financial liabilities at amortised cost:			
Deposits and borrowing from public	(9,566)	(8,186)	(8,904)
Debt securities issued	(3,633)	(3,635)	(3,633)
Deposits from credit institutions and central banks	(1,862)	(2,249)	(2,678)
Financial liabilities at fair value through profit or loss			
Deposits and borrowing from public	(151)	(184)	-
Lease liabilities	(41)	-	(137)
Other interest expense	(661)	(812)	(661)
Total interest expense	(15,914)	(15,066)	(16,013)
Net interest income	84,641	82,578	75,113

Effective interest rate on some high quality liquid assets is negative, in particular certain central bank, central government and credit institution exposures. As the interest resulting from a negative effective interest rate on financial assets reflects an outflow of economic benefits, this is presented as interest expense.

NOTE 7. NET FINANCIAL INCOME

	EUR thousands			
	2019 Group	2018 Group	2019 Bank	2018 Bank
Foreign exchange trading and related derivatives	6,719	10,057	6,588	8,624
Assets at fair value through other comprehensive income	1,284	587	589	179
Modifications in cash flows which do not result in de-recognition	(339)	(22)	(339)	(22)
Assets and liabilities at fair value through profit or loss	503	(220)	-	-
Assets at amortised cost	29	-	29	-
Total net financial income	8,196	10,402	6,867	8,781

In 2019 net modification gain or loss recognised for loans to public for which the contractual cash flows have been modified during the reporting period while they had a loss allowance measured at an amount equal to lifetime expected credit losses (Stage 2 and Stage 3 classified) is EUR 213 thousand (2018: EUR 33 thousand). The net carrying amount of loans to public that are Stage 3 classified as at 31 December 2019 that have been modified since initial recognition is EUR 2.6 million (2018: EUR 12.7 million).

In the reporting period select debt securities classified at amortised cost were disposed before maturity. These sales constitute a part of a larger one-off plan to accumulate the required liquidity and optimisations in capital-use in a preparation for an anticipated acquisition transaction. For details on the acquisition transaction refer to Note 22 (*Events after the Reporting Date*). Due to the one-off nature of the plan, the specific business model's objective to hold financial assets in order to collect contractual cash flows still holds.

NOTE 8. NET OTHER INCOME

	EUR thousands			
	2019 Group	2018 Group Restated (Note 3 c)	2019 Bank	2018 Bank Restated (Note 3 c)
Dividend income	43	34	3,348	2,491
Net insurance result	125	486	-	-
Rental income from investment properties	1,205	-	-	-
Other income	968	2,579	3,164	2,426
Supervisory fees	(1,582)	(1,411)	(1,484)	(1,239)
Other expenses	(587)	(868)	(317)	(316)
Total net other income	172	820	4,711	3,362

In the reporting period a dividend income of EUR 1.5 million from subsidiaries IPAS CBL Asset Management (2018: EUR 2.5 million) and EUR 1.8 million from UAB Citadele faktoringas ir lizingas (2018: none) was received.

Other income includes net result from disposal of repossessed collaterals and other miscellaneous items which may not be considered interest or fee and commission income. Supervisory fees include annual and quarterly fees payable to Financial and Capital Market Commission, European Central Bank, Single Resolution Board and similar. These directly dependent on the size of the banking business (mostly total assets).

NOTE 9. OTHER OPERATING EXPENSES

	EUR thousands			
	2019 Group	2018 Group Restated (Note 3 c)	2019 Bank	2018 Bank Restated (Note 3 c)
Information technologies and communications	6,184	5,902	5,184	3,955
Consulting and other services	5,932	5,437	4,509	4,349
Rent, premises and real estate	3,463	4,689	2,150	5,664
Advertising and marketing	2,237	3,196	1,954	2,656
Non-refundable value added tax	1,922	3,137	1,562	2,412
Other	2,044	2,840	1,807	1,556
Total other expenses	21,782	25,201	17,166	20,592

Operating lease expenses, which previously were presented as "Rent, premises and real estate", according to the new *IFRS 16 (Leases)* in 2019 are presented as "Depreciation and amortisation". Similarly the implied interest expense on lease liabilities is presented as interest expense. The new standard does not require retrospective application of the new presentation requirements, thus comparatives are not restated. "Rent, premises and real estate" classification is retained for all utility expenses and certain rental fees which do not qualify for classification as depreciation under the new standard. See section a) of Note 3 (*New standards and amendments*).

NOTE 10. NET CREDIT LOSSES

Total net impairment allowance charged to the income statement

	EUR thousands			
	2019 Group	2018 Group	2019 Bank	2018 Bank
Loans to credit institutions	(34)	(58)	(35)	(61)
Debt securities	(6)	116	(16)	81
Loans to public	(7,341)	(12,933)	(6,718)	(10,182)
Guarantees and letters of credit	72	129	72	125
Loan commitments	(1,465)	484	(1,424)	169
Recovered written-off assets	6,369	5,609	7,679	4,624
Total net losses on financial instruments	(2,405)	(6,653)	(442)	(5,244)

During the ordinary course of business the recoverability of some loans deteriorates while for others it improves. Fully impaired assets, recovery of which may become economically unviable or impossible, may be written-off. When a loan is fully or partially written-off, the claim against the borrower normally is not forgiven. Full and partial loan write-offs directly decrease specifically assessed accumulated impairment allowance. From time to time previously written-off assets are recovered due to repayment, sale of pool of overdue assets to companies specialising in recoveries of balances in arrears or as a result of other resolution. Such recoveries are reported as recovered written-off assets. The amounts written-off during the period represent the contractual amount minus penalties (the Group has a policy to recognise penalties on cash basis) recognised for these contracts; the amount is still subject to enforcement activity.

Classification of impairment stages

Stage 1 – Financial instruments without significant increase in credit risk since initial recognition

Stage 2 – Financial instruments with significant increase in credit risk since initial recognition but not credit-impaired

Stage 3 – Credit-impaired financial instruments

Write-offs of allowances refer to reduction of previously recognised ECL balances due to exit of exposures from the balance sheet. The write-offs of allowances are not representative of the impact on profit or loss due to allowances being raised in previous periods as well as offsetting recoveries. In 2019 recoveries of previously written-off balances which were directly recognised in the income statement amounted to EUR 6.4 million for the Group (2018: EUR 5.6 million).

Stage 3 loans to public ratio

	EUR thousands			
	31/12/2019 Group	31/12/2018 Group	31/12/2019 Bank	31/12/2018 Bank
Stage 3 loans to public ratio, gross	4.8%	9.1%	4.5%	8.2%
Stage 3 loans to public ratio, net	2.5%	6.2%	2.4%	5.3%
Stage 3 impairment ratio	50%	35%	49%	38%

Stage 3 loans to public ratio is calculated as stage 3 loans to public divided by total loans to public as of the end of the relevant period. All loans overdue by more than 90 days are classified as stage 3. Non-overdue loans and loans overdue less than 90 days which have been restructured, an impairment losses have been identified based on individual assessment or financial condition of the borrower has deteriorated significantly are classified as stage 3. Part of the loans classified as stage 3 do not have any current default indicators, but are put under monitoring period for a specific time before being reclassified out of stage 3. Loans under recovery are also classified as stage 3.

Stage 3 impairment ratio is calculated as impairment allowance for stage 3 exposures divided by gross loans to public classified as stage 3. Impairment allowance is the amount of expected credit loss expensed in the income statement as credit loss and is derived from historic loss rates and future expectations, and where available considering fair value of the loan collateral. For more details on estimation of expected credit loss allowances refer to the latest annual report of the Group.

NOTE 13. EQUITY AND OTHER FINANCIAL INSTRUMENTS

All exposures in mutual investment funds which are classified as financial assets designated at fair value through profit or loss are related to life insurance business, most of these with unit-linked insurance plan assets. According to unit-linked investment contract terms, the risk associated with the investments made by the insurance underwriter is fully attributable to the counterparty entering the insurance agreement and not the underwriter.

As of 31 December 2019 the Bank and the Group has investments in mutual investment funds with carrying amount of EUR 6.4 million (2018: EUR 6.1 million) and EUR 21.6 million (2018: EUR 20.1 million) which are managed by IPAS CBL Asset Management or its subsidiaries. Further, EUR 12.6 million (2018: EUR 11.9 million) of these Group's investments relate to unit-linked contracts where the risk associated with the investments made is fully attributable to the counterparty entering the insurance agreement and not the underwriter. These exposures have been acquired only with investment intentions. The Bank has no exposure to investments related to unit-linked contracts.

The Lithuanian branch of AS Citadele banka was registered on 25 October 2018 with an intention to transform AB Citadele bankas (Lithuania) from subsidiary to branch. The decision was taken to ensure increased operational efficiency across the Group and allow Citadele to maximize its client offerings and service output across the Baltics. In 2019 all assets, liabilities and business of AB Citadele bankas (Lithuania) was integrated in the Lithuanian branch of AS Citadele banka. In 2019 the Group operates in Lithuania as the Lithuanian branch of AS Citadele banka.

On 5 April 2019 SIA RPG Interjers was merged with SIA Citadeles moduļi and ceased to operate as a separate entity. Post-merger all assets, liabilities and operations of SIA RPG Interjers were transferred to SIA Citadeles moduļi.

Group companies Calenia Investments Limited and OOO Mizush Asset Management Ukraina are in liquidation as they had no ongoing business operations. Group company SIA Hortus RE was liquidated on 26 February 2020.

In the reporting period share capital of subsidiaries SIA Hortus Land, SIA Hortus Residential and SIA Hortus RE were increased by EUR 2.7 million. Due to expected losses on current operations an additional impairment of EUR 1.2 million on these investments was recognised in the reporting period.

In the reporting period valuation of SIA Citadele Līzings un Faktoringa and SIA Citadeles moduļi was reassessed. In total EUR 4.9 million release of impairment in the investments in these subsidiaries was recognised as a result of an improved profitability of SIA Citadele Līzings un Faktoringa and a higher shareholder's wealth accumulated by SIA Citadeles moduļi.

Carrying value of the investment in SIA Citadeles moduļi is estimated as a residual interest in the assets of the entity after deducting all of its liabilities. The major asset of the entity is the headquarters building of the Group. The value of the building is derived from the value-in-use discounted cash flows after adjustments for capital expenditure. The property in the Group's consolidated accounts is presented as tangible asset and carried at amortised cost. Key inputs of the model are 6.5% (2018: 7.0%) expected yield, and future net cash flows generated by the property. Sensitivity scenarios: if the expected yield was +/-100 basis points than the carrying value EUR +7.5/-5.5 million (2018: EUR +7.2/-5.4 million), if undiscounted shareholders cash flows were +/-10% than the carrying value EUR +/-4.1 million (2018: EUR +/-4.5 million).

Carrying value of the investment in SIA Citadele Līzings un Faktoringa is derived from present value of expected free equity distributable to the shareholders, after required equity allocation for capital adequacy compliance. The target capital adequacy ratio is set at 12% and includes allocated charges for all banking risks inherent in the business model of the leasing plus full set of regulatory buffers as applicable for the Group consolidated and on top of that a managements buffer. Other key inputs of the model are 12.0% (2018: 12.0%) discount rate and future profitability of the operations of the entity. Sensitivity scenarios: if discount rate was +/-100 basis points than the carrying value EUR +/-0.1 million (2018: EUR +1.1/-0.9 million), if net profits were +/-10% than the carrying value EUR +/-0.1 million (2018: EUR +/-1.3 million).

All shares other than these owned by European Bank for Reconstruction and Development and RA Citadele Holdings LLC are owned by an international consortium of twelve investors.

Earnings per share

Basic earnings per share are calculated by dividing the net profit that is attributable to the ordinary shareholders by the weighted average number of the ordinary shares outstanding during the period. Diluted earnings per share are determined by adjusting the net profit that is attributable to the ordinary shareholders and the weighted-average number of the ordinary shares outstanding for the effects of all dilutive potential ordinary shares, which comprise share options granted to employees in the long-term incentive programs. The part of the performance-based employee share options for which the services under the approved long-term incentive programs have been received are included in the calculation of diluted earnings per share. The remaining part of the performance-based employee share options, issuance of which is contingent upon satisfying specific conditions, in addition to the passage of time are treated as contingently issuable shares and are not included in the calculation of diluted earnings per share.

Maximum credit risk exposure for financial commitments	326,236	341,565	406,956	352,901

Lending commitments are a time limited and binding promise that a specified amount of loan or credit line will be made available to the specific borrower at a certain conditions. For part of the committed lending promises clients have to perform certain obligations before the balance committed becomes available to them. Some lending commitments and undrawn credit facilities may be cancelled unconditionally by the Group at any time without notice, or in accordance with lending terms and conditions may effectively provide for automatic cancellation due to deterioration in a borrower's creditworthiness.

NOTE 21. RISK MANAGEMENT

Risk management policies

The Group considers risk management to be an essential component of its management process. The Group believes that it pursues prudent risk management policies that are aligned with its business and which aim to achieve effective risk mitigation. In order to assess and monitor complex risk exposures, the Group applies a wide range of risk management tools in conjunction with risk committees. Members of risk committees represent key operations of the Group in order to balance business and risk orientation within respective risk committees. The Group's risk management principles are set out in its Risk Management Policy. The Group adheres to the following key risk management principles:

- The Group aims to ensure that it maintains low overall risk exposure, diversified asset portfolio, limited risks in financial markets and low levels of operational risk;
- The Group aims to ensure an acceptable risk level in all operations. Risks are always assessed in relation to their expected return. Risk exposures that are not acceptable are avoided, limited or hedged;
- The Group does not assume high or uncontrollable risks irrespective of the return they provide, and assumes risks only in economic fields and geographical regions in relation to which it believes it has sufficient knowledge and expertise;
- Risk management is based on each Group's employee's responsibility for the transactions carried out by him/her and awareness of the related risks;
- Risk limit system and strict controls are essential risk management elements. Control over risk levels and compliance with the imposed limits is achieved by the existence of structured risk limit systems for all material risks.

The aim of the risk management in the Group is to facilitate the achievement of the Group's goals, successful development, long-term financial stability, and to protect the Group from unidentified risks. Risk management within the Group is controlled by an independent unit – the Risk Sector.

The main risks to which the Group is exposed are: credit risk, market risk, interest rate risk, liquidity risk, currency risk and operational risk. For each of these risks the Group has approved risk management policies and other internal regulations defining key risk management principles and processes, functions and responsibilities of units, risk concentration limits, as well as control and reporting system.

Loans to credit institutions by credit rating grade

The investment in the Group's Swiss subsidiary AP Anlage & Privatbank AG, which is carried at cost, is shown as a CHF exposure, as the recoverability of this asset will ultimately depend on the Swiss currency's performance.

Liquidity coverage ratio

The general principles of the liquidity coverage ratio (LCR) and the net stable funding ratio (NSFR) as measurements of the Bank's and the Group's liquidity position are defined in the Regulation (EC) No 575/2013. The Commission Delegated Regulation (EU) 2015/61 effective from 1 October 2016 in more details defines LCR calculation principles. The minimum LCR requirement is 100%. The Bank and the Group is compliant with LCR requirements.

Liabilities and commitments are allocated to the earliest period in which the Group may be contractually required to settle the liabilities or the customer may draw down undrawn loan commitments. Issued financial guarantee contracts are allocated to the earliest period in which the guarantee could be called. Assets are allocated to the earliest period in which the Group may contractually require to settle receivables.

Capital management

Capital adequacy is calculated in accordance with the current global standards of the bank capital adequacy (the Basel III international regulatory framework) as implemented by the European Union via a regulation (EU) 575/2013 and a directive 2013/36/EU, the Financial and Capital Markets Commission's (FCMC) rules and other relevant regulations.

Capital adequacy refers to the sufficiency of the Group's capital resources to cover credit risks, market risks and other specific risks arising predominantly from asset and off-balance sheet exposures of the Group. The regulations require Latvian banks to maintain a total capital adequacy ratio of 8.0% of the total risk weighted exposure amounts. The rules also require 4.5% minimum common equity tier 1 capital ratio and 6.0% minimum tier 1 capital ratio. Total SREP capital requirement (TSCR) requires capital to cover risks in addition to these covered by the regulation (EU) 575/2013. TSCR is established in a supervisory review and evaluation process (SREP) carried out by the national supervisory authority. The national supervisory authority determines TSCR on a risk-by-risk basis, using supervisory judgement, the outcome of supervisory benchmarking, ICAAP calculations, and other relevant inputs. The additional pillar 2 capital requirement is re-assessed annually by the FCMC. As of the period end based on the FCMC's assessment an additional 2.90% capital requirement (TSCR) for the Group and the Bank is determined to cover pillar 2 risks. The Bank and the Group is required to cover 56% of the TSCR with common equity tier 1 capital (1.62% capital requirement), 75% with tier 1 capital (2.18% capital requirement) and 100% with total capital (2.90% capital requirement).

For the Group and the Bank 2.5% capital conservation buffer applies, limiting dividend pay-out and certain other Tier 1 equity instrument buy-backs if the threshold is not exceeded. Countercyclical buffer norms are calculated at every reporting date based on the factual risk exposure geographical distribution. The FCMC has identified the Bank as "other systemically important institution" (O-SII). The Bank's and the Group's O-SII capital buffer requirement set by the FCMC is 1.5%. These buffer requirements have to be covered by common equity Tier 1 capital.

Since 30 June 2019 the Group and the Bank applies prudential provisioning requirements in line with the FCMC regulations. The Bank has subsidiaries, which are financial institutions, and needs to comply with the regulatory requirements both at the Bank's standalone level and at the Group's consolidated level. As of the period end both the Bank and the Group have sufficient capital to comply with the FCMC's capital adequacy requirements.

Regulatory capital requirements of the Group on 31 December 2019

	Common equity Tier 1 capital ratio	Tier 1 capital ratio	Total capital adequacy ratio
Common equity Tier 1 ratio	4.50%	4.50%	4.50%
Additional Tier 1 ratio	-	1.50%	1.50%
Additional total capital ratio	-	-	2.00%
Individual TSCR, as determined by the FCMC	1.62%	2.18%	2.90%
Capital buffer requirements:			
Capital conservation buffer	2.50%	2.50%	2.50%
O-SII capital buffer	1.50%	1.50%	1.50%
Countercyclical capital buffer	0.24%	0.24%	0.24%
Capital requirement	10.36%	12.42%	15.14%

As of the period end capital requirements and buffers for the Bank are the same as for the Group.

Common equity Tier 1 capital ratio	18.8%	16.7%	19.2%	17.6%

* The Bank's and the Group's Tier 1 capital includes full 2019 profits, inclusion of which is subject to the annual audit. If only audited 6 month interim profits were included, total regulatory own funds for the Group and the Bank would be EUR 375.5 million and EUR 359.4 million, total capital adequacy ratio would be 21.1% and 21.6%, and CET 1 ratio would be 17.7% and 18.0% respectively.

The consolidation Group for regulatory purposes is different from the consolidation Group for accounting purposes. As per regulatory requirements AAS CBL Life, a licensed insurer, is not included in the consolidation Group for capital adequacy purposes. Consequently, it is excluded from own funds calculation and individual assets of AAS CBL Life are not included as risk exposures in the Group's capital adequacy calculation. Instead, the carrying value of the Group's investment in AAS CBL Life constitutes a risk exposure in the Group's capital adequacy ratio calculation.

Capital adequacy calculation of the Bank and the Group in accordance with the EU and the FCMC regulations (Basel III framework, Pillar I as implemented by EU and FCMC) permits transitional adjustments. For 2019 and later periods transitional provisions with a diminishing favourable impact apply to IFRS 9 implementation impact. The regulation (EU) 2017/2395 permits specific proportion of IFRS 9 implementation impact to be amortised over a five year period (starting from 2018) for capital adequacy calculation purposes. The long term regulatory capital position of the Group and the Bank is planned and managed in line with these and other expected upcoming regulatory requirements. In the reporting period the capital adequacy ratio of the Bank decreased as a result of the integration of the Lithuanian operations.

Fully loaded capital adequacy ratio (i.e. excluding transitional adjustments, including profits for 2019)

	EUR thousands			
	31/12/2019 Group	31/12/2018 Group	31/12/2019 Bank	31/12/2018 Bank

Common equity Tier 1 capital ratio, fully loaded	18.6%	16.4%	18.9%	17.4%

Leverage ratio – fully loaded and transitional (including profits for 2019)

Leverage ratio is calculated as Tier 1 capital versus the total exposure measure with the minimum requirement of 3%. No buffer requirements for O-SII banks apply under the current regulatory framework. The exposure measure includes both non risk based on-balance sheet and off-balance sheet items calculated in accordance with the capital requirements regulation. The leverage ratio and the risk-based capital adequacy ratio requirements are complementary, with the leverage ratio defining the minimum capital to total exposure requirement and the risk-based capital adequacy ratios limiting bank risk-taking.

	31/12/2019 Group	31/12/2018 Group	31/12/2019 Bank	31/12/2018 Bank
Leverage Ratio – fully phased-in definition of Tier 1 capital	8.7%	9.3%	8.9%	10.9%
Leverage Ratio – transitional definition of Tier 1 capital	8.8%	9.5%	9.0%	11.0%

Minimum requirement for own funds and eligible liabilities (MREL) under BRRD

In 2016 the European Commission adopted the regulatory technical standards (RTS) on the criteria for determining the minimum requirement for own funds and eligible liabilities (MREL) under BRRD. In order to ensure the effectiveness of bail-in and other resolution tools introduced by BRRD, BRRD requires that all institutions must meet an individual MREL requirement, calculated as a percentage of total liabilities and own funds and set by the relevant resolution authorities. The RTS permits resolution authorities to allow institutions a transitional period to reach the applicable MREL requirements. The MREL requirement for each institution is comprised of a number of elements, including the required loss absorbing capacity of the institution, and the level of recapitalisation needed to implement the preferred resolution strategy identified during the resolution planning process. Items eligible for inclusion in MREL include institution's own funds (within the meaning of the capital requirements directive), along with specific eligible liabilities

(inter alia issued and fully paid-up, having a maturity of at least one year (or do not give the investor a right to repayment within one year), and do not arise from derivatives). The MREL requirement must be met partially with subordinated instruments. MREL eligible subordinated instruments are liabilities subordinated to liabilities excluded from bail-in in accordance with directive 2014/59/EU.

The Single Resolution Board (SRB) has determined the consolidated MREL for Citadele Group at the level of 14.92% of total liabilities and own funds (TLOF), of which 10.78% of TLOF shall be met with subordinated instruments. The MREL was determined by SRB using the financial and supervisory information as of 31 December 2018 and may be updated by SRB in the future based on a more recent financial information of the Group. The MREL target must be reached by 31 March 2022. After the transition period the Group shall comply with MREL at all times on the basis of evolving amounts of TLOF.

NOTE 22. EVENTS AFTER THE REPORTING DATE

Acquisition of UniCredit's leasing operations in the Baltics

AS Citadele banka has entered into a binding agreement with UniCredit S.p.A. to acquire UniCredit's Baltic leasing operations through the acquisition of 100% of the shares in SIA UniCredit Leasing (including its Estonian and Lithuanian branches), along with its 100% owned subsidiary SIA UniCredit Insurance Broker (including its Estonian branch). SIA UniCredit Leasing is one of the leading market players in the Baltics, with more than 20 years of experience in the area of leasing, a lease portfolio of more than EUR 850 million, and a demonstrated ability to deliver sustainable business growth. Following the acquisition, Citadele's aggregate net leasing loans will exceed EUR 1.1 billion. As a result, Citadele will become one of the three largest players in the Latvian leasing market, and will significantly strengthen its footprint across the Baltics. The closing of the acquisition is expected in the first quarter of 2020, subject to mandatory approvals.

AS Citadele banka plans to issue new subordinated bonds

AS Citadele banka Management Board has approved the plans to launch Citadele's Third Unsecured Subordinated Bonds Programme and issue new subordinated bonds in the amount of up to EUR 30 million. Proceeds from the offer are to be used by Citadele for its general business development, and to strengthen further Citadele Group's capital base.

OTHER REGULATORY DISCLOSURES

Besides financial, corporate governance and other disclosures included in this interim report of AS Citadele banka the Financial and Capital Market Commission's regulation No. 145 "Regulation on Preparation of Public Quarterly Reports of Credit institutions" requires several additional disclosures which are presented in this note.
